

Durham Region – Traffic Management Centre – Upgrade Whitby, Ontario

The Regional Municipality of Durham’s Traffic Engineering and Operations Division monitors and manages traffic flow, detects and clears incidents, and provides travelers with real-time road, traffic and transit information.

Located in Whitby, Ontario, this control centre has been in operation since 2005 and has recently expanded its display wall in size. There are a total of ten 70” (diagonal) rear screen projection cubes that are illuminated by ten Christie Digital RPMX-D120U rear screen tiling projectors and a Christie FRC-5100 display wall controller. The seamless display wall is 46 ft. wide x 8 ft. high.
